Cape Girardeau Courts to Have Office Here.

James L. Gray, clerk of the new United States court established at Cape Girardeau, Mo., has decided to maintain the permanent office of the court in St. Louis as a part of the federal courts for the eastern district of Missouri, of which he is also clerk. He will not appoint a deputy clerk at Cape Girardeau, as was at first proposed.

The clerk's office will be located at Cape Girardeau only when the court is in session there. In the intervals the records will be kept in St. Louis, and all papers will be filed here when the court is not in session there. The act establishing the Southeast Missouri district goes into effect July 31. The court will not meet at Cape Girardeau until October, when Judge Finkelnburg will hold the first session.

The new district embraces seventeen counties. The act provides that Cape Girardeau is to furnish quarters for the sessions, and the county court house will be used.—Globe Democrat.

If the above is true, and no federal court building is ever to be built at the Cape, and no permanent officers or records are to stay at the Cape, then this district is a nominal one and a farce as far as Cape Girardeau is concerned.

### From Indian Creek.

Well, Mr. Editor of the HERALD, we thought we would load up our little popgun and shoot, taking aim at the old court house and the old stinking jail house. You can bet your old boots that I am not going in that jail until its made better and decent. Do you hear me?

Now, readers, you all know that prisoners are human beings; yet they violate the laws of the country, and have to be kept somewhere, and it is best to have a good, strong and healthy jail. Filthiness breeds diseases which are likely to spread through the country. Keep your prisoners healthy and they can work on the rock pile or on the streets, and feed them according to their work. Good health and plenty of work points toward prosperity, and as we are living in a grand and rich county, with prosperity so great and money to give away, let us show our faith by our works, by voting for a new court house and a new jail.

Cape county is a grand and

glorious county and it is my home, and I want this county to get out of these old ruts and get up on the top round of the ladder.

Now look here, readers, how can you educate your children without a school house? How can a miller keep his machinery and bread stuff without a roomy house? How can your mothers, or your wives, or sisters, or daughters keep house for all of the household without a good roomy house? How can your county officers do business, keep all the business of the county for a hundred years or more, without a good, roomy house? Well, then, just come out and vote for a new court house and jail like a little man; then we will feel proud when we go to Jackson and see old things done away with and new ones taking their places. Then we will quit voting for these 2x4 sons that wear their hair parted in the middle, brains on one side and a beer-belly on them as big as grandma's egg basket, and who think they have the world by the tail and a down-hill pull on it.

I want a new court house. I want a new jail. I want a good set of officers. I want plenty of money. I want plenty to eat. I want plenty of good society. I want good health.

All of the above brings prosperity. Now, if this hits everybody, just let them "holler." It's Me.
